

What others say about the program

"The most valuable aspect of those two days is learning about the latest in the industry, meeting with other European industry leaders and exchanging business ideas and trends."

Paul Shortt, Managing Director, Castlecool Ltd., Ireland

"The issues facing European members today are the challenges North American companies will be facing the coming years. Getting a first-hand look at how they manage these problems will give the insight and experience needed to prosper in the future."

Larry Laurin, President, Conestoga Cold Storage, Canada

"A very good program! I have been to many meetings regarding the cold storage industry and am still finding new information during this conference."

Svend Pedersen, Managing Director, Agri-Norcold A/S, Denmark

"A great chance to meet the international cold store logistics business." *SSI Schaefer, Switzerland*

"The program provides a better understanding of the industry – where it is going, developments, solutions to problems we face everyday, and best practices that can be used to improve your business."

Demetrios Stratos, Operations & Commercial Manager, Mave Ltd., Greece

"Excellent opportunity to contrast and share experiences with both colleagues and suppliers in a very dedicated and relaxed atmosphere."

Manuel Cabrera Kabana, Director, Frio Puerto Valencia, Spain

"An excellent opportunity for networking"
Evapco, Belgium

"The most valuable aspects are a full update on the latest trends and developments in temperature-sensitive logistics and unlimited social interaction with industry colleagues from all over the world."

Robert McNamara, Managing Director, Lomvardos Cold Store, Greece

"An excellent conference, with thorough and well-informed speakers, highly motivated participants, and in a wonderful city. I am sure many would find this conference as immensely enlightening and enjoyable as I did"

Gerard von Dohlen, President, Port Newark Refrigerated Warehouse, USA

Who should attend?

The program is targeted at executives, senior managers, operations managers, logistic directors, ICT managers, technical directors, financial managers, plant managers, transportation managers, supply chain directors, and distribution managers from all links of the cold supply chain: public & private cold storage, warehousing, distribution companies, the transportation industry, shipping & forwarding business, the logistics sector, consulting ... and suppliers to these industries.
